← M.C. - [ ] STAT

3 November 1980

JSW:

[ ] called today. STAT

1. He said [ ] wanted to know the status of our ad for [ ]  
languages. I told him that we were placing it through the Office of  
Personnel (which he suggested) and we would be following up on it this  
week. I also told him that [ ] gave us some good leads which  
[ ] is following up on. STAT  
STAT

2. [ ] said the cubicle for the Muslim World project ran into  
trouble with the planning authority. In fact it's been turned down.  
However, BBC is resubmitting it with the foreign office approval so it  
looks pretty good. However there will be at least a month delay which  
of course is no major problem since they don't have that many bodies to  
worry about. STAT

3. [ ] said that [ ] wanted it confirmed that we had noted his  
request for an extension in his PPQ. I said we were aware of that but  
could not accommodate him. As a matter of fact we are turning down others  
who asked for similar extensions. He asked about the possibility of a lateral  
for [ ] and I said all of our assignments at that level for 1981  
had been made. However, if something did come up we would consider [ ]  
and [ ] should so inform him. In other words, we can't rule out completely  
the possibility of a lateral. STAT

4. He said that next week [ ] would start doing the roundup. STAT  
His plan was to rotate it every three months. I said "OK, you're the boss."
